# DIRECTORY OF THE AGRICULTURAL RESEARCH SERVICE

---

U.S. DEPARTMENT OF AGRICULTURE

## INTRODUCTION

This Directory, designed to provide information about ARS personnel, is organized into four main sections.

The first section is composed of the ARS headquarters staff, and includes the Office of the Administrator, National Program Staff, Program Analysis and Coordination Staff, Information Division, International Programs Division, the Office of the Deputy Administrator for Management, and the management divisions—Budget and Finance Division, General Services Division, and Personnel Division.

The following four sections are: Northeastern Region, North Central Region, Western Region, and Southern Region. Each regional section is grouped according to its Areas. Areas are broken down to include the office of the Area Director and the various laboratories and locations. A detailed map of each region is included in the Directory.

We anticipate that this first issue contains a good many errors—misspelled names, incorrect addresses and telephone numbers, perhaps omissions. Every reasonable effort was made to achieve accuracy, but we did not take the time that would have been necessary to verify all of the entries individually because, first, we felt an impelling need for a directory, and second, we expect to routinely update the Directory at least twice a year.

First Issue c 1960
